

CHARVESH KUMAR

B.Tech CSE (Artificial Intelligence & Machine Learning) | AI/ML Student

Bangalore, India • +91 6300299383 • charveshkumar@gmail.com

• GitHub: <https://github.com/charveshkumar> • LinkedIn: <https://www.linkedin.com/in/charvesh-kumar-1044a8404/>

PROFESSIONAL SUMMARY

B.Tech CSE (AI & ML) student with hands-on experience building AI/ML and full-stack projects across computer vision, Generative AI, RAG, NLP, and web application development. Experienced with Python-based development, dataset preparation, model workflows, and AI-powered application design. Actively building practical solutions through projects, internships, hackathons, and technical activities.

EDUCATION

Education	Institution	Year / Score
B.Tech – CSE (Artificial Intelligence & Machine Learning)	Kuppam Engineering College, JNTUA	2023–2027 Currently 4-1
Intermediate – MPC	IRM Intermediate College, Board of Intermediate Education, Andhra Pradesh	2023/ 86%
10th – SSC	Narayana e-Techno School, Board of Secondary Education, Andhra Pradesh	2021/ 100%

TECHNICAL SKILLS

Programming: Python, C

AI / ML: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, RAG

Frameworks / Libraries: TensorFlow, FastAPI, Django, React, Vite, Flutter, Chart.js

Web: HTML, CSS, JavaScript

Tools / Platforms: VS Code, Antigravity, Kaggle, Git, GitHub

Database: SQLite

INTERNSHIP EXPERIENCE

Machine Learning Intern — SKILLDZIRE | 11 May 2026 – 04 July 2026

- Gained practical exposure to machine learning workflows, model development, data analysis, experimentation, and AI/ML project implementation.
- Applied academic AI/ML concepts through hands-on technical work and structured project development.

PROJECTS

AI Tower Detection System | YOLO11m • Computer Vision

- Developed a computer-vision pipeline for AI-based tower detection using YOLO11m.
- Prepared and cleaned image datasets, performed image annotation, and organized classes including supporting tower and monopole tower.
- Worked through model training and evaluation workflows for object-detection use cases.

CIVICONE / CIVIQONE — Digital Identity Platform | AI/Full Stack • Security Architecture

- Designed a digital identity platform concept connecting government, education, healthcare, banking/finance, and private-sector services.
- Planned citizen identity and digital-certificate management features, including certificate locking/unlocking and access to health reports and insurance information.
- Explored SSI, tokenization, cryptography, JWS, and Zero-Knowledge Proof concepts as security foundations.

Academia AI — Student Academic Resource & AI Learning Platform | RAG • Full Stack • Generative AI

- Designed a hierarchical academic resource system covering department, batch, year, semester, subject, unit, and learning materials.
- Planned a citation-supported RAG AI Tutor with summarization, question generation, 3D flashcards, and community Q&A.

PROJECTS

Habit Tracker Dashboard | *React • Vite • Chart.js*

- Built a dark-theme habit-tracking dashboard with habit feed, calendar, consistency graph, and visual progress tracking.
- Implemented theme customization, LocalStorage persistence, Chart.js visualization, and context-based state management.

Email Spam Detection | *TensorFlow • NLP • Deep Learning*

- Developed a spam-classification model to distinguish spam from non-spam emails using text-processing and deep-learning techniques.
- Used tokenization/padding and training callbacks including EarlyStopping and ReduceLROnPlateau in the original implementation.

HACKATHONS & TECHNICAL ACTIVITIES

- Pruyukthi 2K26 — PSV College of Engineering: Won 1st Prize in the Project Expo event.
- ElectroHack 4.0 — K.S. Institute of Technology, Bangalore: Participated in the 24-hour hackathon.
- Bharat Builds Tour Hackathon — Participated in the hackathon associated with WeBuildDev / AWS.

CERTIFICATIONS

- Cisco Networking Academy — Python & Networking
- AcceleratorX — Building AI Agent
- Microsoft — Fundamentals of AI Concepts
- Spoken Tutorial — Arduino Training & JavaScript

ACHIEVEMENTS & ADDITIONAL ACTIVITIES

- Won 1st Prize in the Project Expo at Prayuthi 2K26, PSV College of Engineering.
- Participated in a 24-hour hackathon at ElectroHack 4.0, K.S. Institute of Technology, Bangalore.
- Completed a Machine Learning internship at SKILLDZIRE (May–July 2026).

CORE & ADDITIONAL SKILLS

Soft Skills: Problem Solving, Communication, Teamwork, Collaboration, Time Management

Languages: Tamil, Telugu, Kannada, Hindi
